

Cybersecurity and HIPAA Solutions to Protect Healthcare Organizations and Their Patients

Asante Cloud is a Boise-based IT consulting firm supporting Idaho and Montana healthcare providers and our cyber solutions are powered by AWS, Microsoft, Silent Sector, and CrowdStrike. From HIPAA and Cyber Risk Assessments to complete cybersecurity program services, our solutions are designed specifically for each organization we serve-no matter your location, size or budget. We also offer Grant writing and Grant management assistance and have a focus on Telemedicine and Telehealth.

Assessments & Testing

- Cybersecurity Risk Assessments
- HIPAA Compliance Assessments and Best Practices
- Penetration Testing and Vulnerability Scanning

Cybersecurity Program Development

- Virtual CISO services
- Program design and road mapping
- Security policy, procedure, and standards documentation
- Incident response and disaster recovery planning and testing
 - Staff awareness training
- Vendor vetting and security management

Technical Cybersecurity Support

- Cybersecurity architecture and engineering services
